A Turn For The Better

Your Complete Benefit Administration System

EASI streamlines the entire benefit administration, compliance, and employee communication processes so that it's as efficient and painless as possible. Our software is designed with the **"non-technical"** user in mind. As a result, it is intuitive and easy-to-use for employees, HR managers and administrators alike.

EASI is a state-of-the-art, cloud-based solution that makes online enrollment simple and speedy for employers. 90 Degree Benefits partnered with bswift, the top rated eligibility platform in the industry, to create this advanced, adaptable, and intuitive platform to enroll and communicate with employees. It is one of the most robust platforms on the market, designed to address compliance and enrollment needs from one easy-to-use platform.

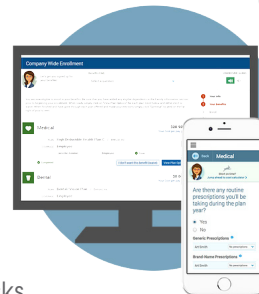

EASI provides continual regulatory and compliance management and analysis of how healthcare reform impacts an employer's business, including potential strategies for optimizing employer-sponsored health benefits and minimizing taxes and fees.

EASI is also a portal for employees to access all required documents, forms and brochures — 24/7 from any device. When employees have access to the documents they need, anytime and anywhere, HR Managers and administrators have more time to focus on other vital tasks.

All of our tools are quickly and easily configurable and available on-demand, with numerous scheduling and alert options, to meet the evolving needs of businesses.
